CONCENTRATED

makes up to  
**15 PINTS**

NET CONTENTS 24 FL. OZ. (1.5 PT) (709 mL)

## STAIN & ODOR REMOVER

**APPLICATIONS:** To be used on any surface for the removal of stains and odors caused by urine, feces, vomit, blood, mud, grass, food, and more.

**DIRECTIONS FOR USE:** Before using, test surface to be treated for color fastness by applying to a hidden area. Do not use sanitizers or disinfectants 6 hours before or after treatment as these may kill off the active bacteria, making the product ineffective. For best results, shake before each use. Do not mix more than you will use in 7 days as the mixture will become less efficacious. Do not freeze.

### Carpets, Mattresses & Upholstery:

Mix 1 cup of STAIN & ODOR REMOVER with 5 to 10 cups of warm water in a large container and saturate (but don't flood) problem area. Rub deep into fibers to break down the stain and disperse the solution. Cover area with a damp, white towel and leave overnight. Remove towel and let completely air dry. If the stain or odor still remains once the area has dried, repeat the application process.

### Pet Bedding:

Add ¼ to ½ cup of STAIN & ODOR REMOVER to washing machine and wash bedding according to label washing instructions.

**CAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS.** Not for human or animal consumption. Do not contaminate food or food contact surfaces. Use only as directed. Discontinue use and contact a medical professional or veterinarian if signs of irritation develop. Avoid contact with eyes. If product gets into the eye of a human or pet, hold eye open and gently flush with water for several minutes. Wash hands after each use. If swallowed, seek medical advice.

**INGREDIENTS:** Water, Viable Stabilized *Bacillus* Cultures, Sodium Methyl 2-Sulfolaurate and Disodium 2-Sulfolaurate, Fragrance.
