

Organic cotton swabs

Mercola Organic Cotton products are made for health and environmentally conscious individuals. The cotton used in this product is certified organic. It's chlorine and viscose free to reduce the risk of irritation, allergy, and other health related issues.

Why organic? Organic cotton is pesticide free. Organic Cotton goes through a stringent certification process which assures consumers of the quality they are receiving.

All our organic cotton products adhere to the following standards to keep the earth and your body safe:

- ♥ **Certified Organic Cotton** - Viscose/ rayon and pesticide free.
- ♥ **Chlorine and Dioxin Free** - We use hydrogen peroxide in the cotton bleaching process instead of chlorine.
- ♥ **Perfume Free** - Unscented for sensitive skin.
- ♥ **Hypoallergenic** - Allergy and irritation free.
- ♥ **Eco-friendly** - Biodegradable and environmental friendly packaging.
- ♥ **Biodegradable**
- ♥ **Made with your comfort in mind** - We use assurance techniques to provide you with the safest product possible without compromising on quality.
