BIODYNAMIC®

organic himalayan white

traditional white tea

Solspring Biodynamic Organic Himalayan White Tea is grown in the Darjeeling region by small, third generation family owned tea farms in the foothills of the Himalayan Mountains of India - an area filled with abundant wildlife and lively, nurtured soil. The Teesta River runs nearby, offering pristine water originating from a Himalayan glacier. Their Biodynamic farming methods focus on harmony between nature and agriculture as well as ecological responsibility to bring you pure, high quality teas.

Himalayan White Tea offers a crisp yet delicate floral flavor, contains some caffeine and is an invigorating option to enjoy in the morning or as an afternoon boost.

WHY BIODYNAMIC®?

Biodynamic® agriculture goes beyond Organic Standards by using holistic, regenerative farming practices to promote the health of the soil, crops and livestock. Biodynamic® farmers strive to create a diverse and balanced ecosystem within their farm to enhance the nutrition and quality of the food being grown with a heavy focus on sustainability.

How to brew a great cup of Solspring Biodynamic Organic Himalayan White Tea:

- Place one (1) tea bag into tea mug.
- Pour not quite boiling water over tea bag to fully saturate and fill up mug.
- Steep for 4 to 5 minutes, carefully remove tea bag and enjoy.

If brewing iced tea, brew the tea as instructed above, then allow to cool and serve over ice.

To make a pot of tea or a quart of iced tea, add four (4) tea bags instead of one.

INGREDIENTS: Biodynamic Organic White Tea Leaf.
