WHY BIODYNAMIC®?

Demeter Certified Biodynamic® is the soil-first approach to farming that naturally draws carbon from the atmosphere and stores it into the ground, where it belongs, to create richer, more nutrient-dense farmlands and harvests for better food the way nature intended. This self-sustaining cycle also creates a diverse and balanced ecosystem, promoting the overall health of our crops, animals and planet.

Solspring® Biodynamic® Organic Imperial Green Tea is grown in third-generation, family-owned Indian tea gardens, located on the foothills of the Himalayan Mountains. Crafted only from fresh, unopened buds and the finest top leaves of the tea plant, this tea offers a subtle, fragrant flavor. Its natural caffeine makes it ideal for enjoying in the morning or as a revitalizing afternoon beverage.
