

# WHY BIODYNAMIC®?

The world's oldest ecological certification, Demeter Certified Biodynamic® is the soil-first approach to farming that naturally draws carbon from the atmosphere and stores it into the ground, where it belongs, to create richer, more nutrient-dense farmlands and harvests for better food the way nature intended. Viewing the farm as a living organism that's self-sustaining, it follows the cycles of nature to create a diverse and balanced ecosystem, promoting the overall health of our crops and animals while also healing the planet.
